
TabulaSapiens cell types (other atlas in grey)
UMAP1
UMAP2
pancreatic acinar cell
pancreatic ductal cell
intrahepatic cholangiocyte
hepatocyte
paneth cell of colon
intestinal crypt stem cell of colon
transit amplifying cell of colon
epithelial cell
intestinal crypt stem cell of small intestine
enterocyte of epithelium proper of jejunum
hepatic stellate cell
type B pancreatic cell
kidney epithelial cell
large intestine goblet cell
paneth cell of epithelium of small intestine
small intestine goblet cell
enterocyte of epithelium proper of duodenum
enterocyte of epithelium proper of ileum
retinal pigment epithelial cell
basal cell of prostate epithelium
pancreatic stellate cell
bladder urothelial cell
basal cell of prostate epithelium
Mueller cell
glandular secretory epithelial cell
smooth muscle cell
retinal bipolar neuron
vascular associated smooth muscle cell
tuft cell of colon
eye photoreceptor cell
supporting cell of vestibular epithelium
stromal cell
interstitial cell of Cajal
myometrial cell
ventricular cardiac muscle cell
intestinal tuft cell
stromal cell of ovary
myofibroblast cell
theca cell
endothelial cell of lymphatic vessel
thymic fibroblast type 1
endothelial cell of vascular tree
mesenchymal stem cell of adipose tissue
thymic fibroblast type 2
endothelial cell of arteriole
myoepithelial cell
adventitial cell
ovarian surface epithelial cell
natural killer cell
plasma cell
mature NK T cell
Schwann cell
sebocyte
mesothelial cell
naive thymus-derived CD8-positive, alpha-beta T cell
stratified squamous epithelial cell
activated CD4-positive, alpha-beta T cell
melanocyte
tracheal goblet cell
progenitor cell of mammary luminal epithelium
salivary gland cell
pulmonary alveolar type 1 cell
leukocyte
neuron
basal cell
duct epithelial cell
B cell
naive thymus-derived CD4-positive, alpha-beta T cell
tongue muscle cell
mucus secreting cell
pulmonary alveolar type 2 cell
thymocyte
plasmacytoid dendritic cell
serous cell of epithelium of trachea
CD4-positive, alpha-beta thymocyte
skeletal muscle satellite stem cell
acinar cell of salivary gland
myeloid dendritic cell
slow muscle cell
corneal epithelial cell
myeloid leukocyte
macrophage
mononuclear phagocyte
myo-medullary thymic epithelial cell
non-classical monocyte
erythrocyte
acinar cell
ciliated epithelial cell
monocyte
erythroid progenitor cell
classical monocyte
hematopoietic stem cell
mast cell
basophil
hematopoietic precursor cell
myeloid progenitor
platelet
granulocyte
multiciliated columnar cell of tracheobronchial tree
neutrophil
tissue-resident macrophage
peritubular myoid cell
spermatogonium
spermatid
spermatocyte
male germ cell
neuro-medullary thymic epithelial cell
